

I'm very happy to be writing this reference for Roger Ginsley. I've known Rog for over 10 years, basically from the very early days of UltraAnalogue Recordings... He has been instrumental in the service and maintenance of my Studer A80 tape decks for all these years. I've recently have been recording our live concerts and Roger has been manning the recorder for these sessions. Live concerts have often some unforeseen event like (not remembering to give Rog time to change tape!) but he's so quick, he headed off a few disasters with his expertise!

He's a very meticulous person and will get to the bottom of the problem and fix it. But more importantly, he's one of the most honest and trustworthy individuals I know. I would highly recommend Roger for all things related to Studer or Revox.

Edward Pong (UltraAnalogue Recordings)
